## **DETAILED ACTION**

1. Applicant's election of Group I (claims 1-12) and election of zinc as a species, in Paper#11 filed November 27, 2001, is acknowledged.

Claims 1-12 and newly added claims 49-60 are under consideration.

Upon reconsideration of the claims, further restriction applies.

## Election/Restriction

- 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-11 and 49-54, drawn to a formulation comprising Apo-2 ligand and one or more divalent metal ions, wherein the concentration of said one or more divalent metal ions is at a < 2X molar ratio to said Apo-2 ligand, classified in class 530, subclass 350.</p>
  - II. Claims 12 and 55-60, drawn to a formulation comprising Apo-2 ligand and one or more divalent metal ions, wherein the concentration of said one or more divalent metal ions is at a > 2X molar ratio to said Apo-2 ligand, classified in class 530, subclass 350.
- 3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are independent and distinct, and are mutually exclusive, because if the critical feature of the Invention of Group I is that the concentration of the one or more divalent metal

Art Unit: 1646

ions is at a < 2X molar ratio to said Apo-2 ligand, it would exclude the critical feature of Invention II (that is that the concentration of said one or more divalent metal ions is at a > 2X molar ratio to said Apo-2 ligand), and different considerations apply to the two inventions. A reference teaching the critical features of one invention would not necessarily teach or suggest the other.

- 4. Because these inventions are distinct for the reasons given above, restriction for examination purposes as indicated is proper.
- 5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
